ABOUT US

INTRODUCTION

We are committed to providing high-quality, precision fabrication services to meet the diverse needs of our clients. With years of experience in the industry, our skilled team specializes in creating custom solutions for all industries including construction manufacturing and infrastructure.

We pride ourselves on using cutting-edge technology and high-grade materials to ensure every project is completed with the utmost attention to detail and craftsmanship. Whether it's designing, welding, machining, or assembling, we work closely with our clients to deliver exceptional results on time and within budget.

VISION

To be a leader in the fabrication industry, known for our expertise, reliability, and dedication to customer satisfaction.

MISSION

To deliver superior fabrication solutions that enhance the success of our clients, while upholding the highest standards of quality, safety, and integrity.

SERVICES

FABRICATION SERVICES

We specialize in providing top-tier fabrication services for a wide range of industries, including oil & gas, petrochemical, power generation, and more. With years of experience and a highly skilled team, we take pride in delivering exceptional quality and precision in every project we undertake.

We understand that safety, quality, and timely delivery are crucial in the piping industry, and we go above and beyond to ensure that every project is executed on schedule, within budget, and with the utmost attention to detail.

PIPE FABRICATION

- Custom Piping Systems
- Pipe Cutting and Beveling
- Pipe Welding
- Pipe Bending and Shaping
- Pre-Fabricated Piping Spools
- Stainless Steel & Exotic Material Piping
- Support and Bracket Fabrication
- Piping Insulation and Coating
- Modular Piping Systems
- Carbon Steel Piping Fabrication

ABOUT US

FABRICATION SERVICES

BUT JOINT WELDING

We specialize in precision butt joint welding, one of the most common and important welding techniques in piping and structural fabrication. Our expert welders use advanced techniques, including TIG (Tungsten Inert Gas), MIG (Metal Inert Gas), and Stick welding, to ensure that every butt joint is welded with precision, strength, and durability.

SOCKET JOINT

Our experienced welders use a variety of welding methods, including MIG, TIG, and Stick welding, to ensure that each socket joint is welded to the highest standards. We work with various materials, including carbon steel, stainless steel, and other alloys, to meet the specific needs of your project.

PIPING SUPPORT FABRICATION

we provide high-quality piping support fabrication services to ensure the structural integrity and stability of your piping systems. We fabricate both standard and custom ladder designs, including vertical ladders, inclined ladders, and safety cage ladders, as well as handrails that meet or exceed safety codes.

SERVICES

FABRICATION SERVICES

STEEL STRUCTURE FABRICATION AND ERECTION

Whether you need complex steel frameworks for high-rise buildings, bridges, or any other large-scale structure, ASDAF has the expertise to deliver the steel fabrication solutions you need. Our commitment to quality, safety, and customer satisfaction makes us a trusted partner for all your steel structure fabrication projects.

Industries Served:

- Construction
- Oil & Gas
- Power Generation
- Transportation & Infrastructure
- Manufacturing
- Warehousing and Storage

PUNCH CLEARING.

We offer all kinds of comprehensive punch clearing services to ensure that your project is completed to the highest quality standards and without any outstanding issues.

HYDRO TESTING AND PRE COMMISSIONING.

We specialize in providing hydro testing services to ensure the integrity, safety, and performance of your piping and pressure systems. Also we provide comprehensive pre-commissioning services to ensure that all systems and equipment are properly prepared, tested, and verified before entering full-scale operation.

SERVICES

RENTAL CREW SERVICE

We specialize in providing skilled fabrication crews on a rental basis for various industrial, construction, and manufacturing projects. With years of experience in the fabrication industry, our mission is to deliver flexible, high-quality workforce solutions that cater to the unique needs of each project, whether large or small.

CATEGORIES

- MIG Welder (Metal Inert Gas)
- TIG Welder (Tungsten Inert Gas)
- Arc Welder (Arc Welder)
- Pipe Welder
- Underwater Welder
- Metal Fabricator
- Structural Steel Fabricator
- CNC Machinist
- Lathe Operator
- Milling Machine Operator
- Metal Cutter & Grinder
- Punch Press Operator
- Pipe Fitter
- Painters and Coating Specialists
- Welding Inspector
- Quality Control Inspector
- Non-Destructive Testing Technician
- Supervisor
- Foreman
- Scaffolders
- Safety Officers
- Helpers & Assistants

WHY CHOOSE US ?

- Skilled Workforce
- Flexible Rental Terms
- Safety and Compliance
- Cost-Effective Solutions

SERVICES

SCAFFOLDING SERVICES

ASDAF has experienced, professional and skilled team to provide scaffolding services of any type and size during any phase of the new construction/Maintenance /Shut down works.

Industries Served:

- Construction
- Oil & Gas
- Petrochemicals
- Power
- Infrastructure
- Industrial & SWRO

Following are the different types of scaffolding which can be erected and dismantled by sand layer.

- Independent Tower Scaffolding
- Suspended Platform Scaffolding
- Tower Scaffolding
- System Scaffold or Cuplock Scaffold
- Tube and Coupler Scaffold
